

BOND REFERENDUM

On **Tuesday, November 5, 2024**, our voters will consider a bond referendum of **up to \$20.615 million**. These funds would support a bold proposal to enhance safety and security, strengthen our facilities, and create new spaces to help students fulfill their potential without increasing our debt levy property tax rate.

An approved bond referendum would allow us to:

-  Improve safety and security at the Primary and Middle Schools
-  Construct a new auditorium with seating for 600
-  Bolster our athletic competition fields
-  Create a new weight room and multi-purpose practice space
-  Modernize our schools for the next generation
-  Retain and attract top-notch staff
-  Appeal to new families and students
-  Increase the pride and quality of the district's reputation

NO LEVY INCREASE

The current debt levy rate is \$4.04944 per \$1,000 of taxable property value. An approved bond referendum will not increase this rate.
